EVENT DRIVEN MONITOR

Vol. 226

www.KEDM.com

May 25, 2025

Dear Reader,

We realize that the size of KEDM may be intimidating—*it shouldn't be*. KEDM is meant for those in a hurry, along with those who want to spend a weekend fishing for ideas. Here are some tips on how to navigate KEDM based on how much time you intend to spend.

Up front, we have “KEDM Kliff Notes” where we flag what we consider to be the most interesting events of the week. Mind you, these are not buy and sell recommendations, but simply notes on the corporate event. This is then followed by “Weekly Changes” where we note all the material changes since the prior week. For many of you, these two sections should give you all the information you need to be informed of what’s changing in the world of Event-Driven opportunities. The next few pages are our trading watchlists and notes on beaten down stocks that are on our radar for possible inflections in the coming months.

For those who want to dive in, the supporting data then follows. The index on page 2 links to the corresponding sections, allowing you to rapidly jump around to the sections that you are most interested in. We have color coded the data with green indicating a new ticker was added and yellow for when data changes. This is meant to allow you to rapidly scan the data and focus on only the information that has changed since last time. To make the data more user friendly, we have added links that rapidly take you to the appropriate press release, SEC filing or corporate presentation. Finally, we’ve flagged certain data orange to show that it’s moved materially within the data-set. This is for people looking for leaders and laggards.

We know that some of you want to pull charts or go back to old data, so it’s all there for you. It really comes down to what you want to do. KEDM can be a quick weekly reminder of pending events, or it can become a full-time obsession, along with everything in between. We hope you find it as valuable as we do.

Sincerely,

KEDM Team

KEDM Kliff Notes

Too busy to read everything? The KEDM team summarizes the most interesting Event-Driven information of the week/month.

As mentioned last week, we shut off our screens and are writing to you from Crete. Not much to report on as bonds remain our focus. TLT continues to drip below 85 while global yields are breaking out. This is still one of the worst risk/reward setups we have seen for quite some time. It's just a matter of time before the equity markets stop pinging off tariffs and get rugged by the real story. Until then, we are biding our time and trying our best to clear our minds and not to get sucked back in...

The benefit of getting away from the screens is that it allows us to catch up on our long list of pods and books. Along those lines, the much publicized Ira Sohn conference was this past week. We typically don't give any attention to bunch of hedgies talking their book and looking for exit liquidity, but we had a good friend present, so we tuned in. And since we are sooo tech forward here at KEDM, I had our analyst plug them into AI to get a summary that I thought was worth passing along.

Enjoy the long weekend.

- Insiders, including the CFO and a couple Directors, at the [Energizer Bunny \(ENR\) continue to be active](#), buying another three quarters of a million.

Buyback Notes:

- **Our good friend @roojoo3 flagged IMAX China's (1970 HK) buyback ([see here](#); he's also worth a follow). They've scooped up about 1m shares in the last couple weeks and are hungry at 80% of ADV**
- **The Brazilian investment management company., XP Inc. ([XP](#)) popped a \$1b BRL (~\$175m USD) program on the [back of \\$500m BRL completed in Q1](#)**
- Big cash day for the Lutnicks' as Newmark, NMRK, repurchased all of Howard's ~11m shares for \$127m at \$11.58. BGC also took down Lutnick's ~16m shares last week for ~\$150m.
- Radian Group, RDN finished up Q1 buying 4% of SO (\$207m) and \$384m in the TTM. They also [popped a new sizeable \\$750m program](#), upping their total to \$863m (~17%). Since 2020 they have gobbled up 36% of the SO

Investor Day Notes:

- Investor Days Trailing 7 Days: CARR; KFS; JPM; FUN; LNW; MVIS; NCNO; APG; EMBC; STX; FRPH
- Investor Days Next 7 Days: [WWR](#); [PFGC](#); [COHR](#); [FA](#); [XPOF](#); [ASH](#); [NOTV](#)

IPO Notes:

- OnlyFans owner is in talks with investors [to sell itself at \\$8 bil valuation](#). A potential IPO is also on the table.

CEO Turnover Notes:

- **Kurt Wolf, the head of activist Hestia Capital Management, has been appointed as CEO at PBI. Wolf and Hestia won four board seats back in 2023.**
- Marco Galperin will transition to COB after serving as CEO at MELI for 25 years. He will be replaced by Arie Szarfsztejn, an executive since 2017, on January 1st, 2026.

- **The CEO at BBWI, Gina Boswell, has been fired. She will be replaced by Daniel Heaf, effective immediately, who was the former Chief Transformation and Strategy Officer at NKE before he himself was fired by Elliott Hill.**

Bankruptcy Notes:

- 23andMe sold for \$256m in bankruptcy including 14M DNA sequences (~\$18 per profile). You're the product. Kinda scary...
- Wolfspeed, WOLF, is [reportedly planning to file bankruptcy](#) after passing on multiple attempts from creditors to restructure its debt.

SPAC Notes:

- **Great post by Shrub last week laying out some possible SPAC trades in an era of gift. [Worth a read](#) for some decent risk/rewards**
- SPAC Mergers Announced this week: None
- deSPAC'd this week: None
- Votes next week: None

13D and Activist Notes:

- **VSCO -Victoria's Secret [adopted one year poison pill](#) in response to substantial accumulation of stock by BBRC International, setting a 15% trigger.**
- **WEX- Fuel card expense management and fleet analytics Co. Wex caught an activist as Impactive Capital (7% owner) [is looking to unseat 4 BoD at the upcoming AGM](#). This was a top pick of CIO Lauren Taylor Wolfe at Sohn ([link](#)). Worth noting in Q1 WEX shrunk the SO by ~13% via a Dutch Tender for \$800m and have scooped up ~\$1.4b TTM.**
- **ALOT- AstraNova shareholder (9.12%) Askeladden Capital [sent an open letter to shareholders](#). Pretty long letter, TLDR the activist is pissed that the shares are down 52% since MTEX acquisition, and wants the company to meet with lenders to discuss debt reduction, enforce minimum margin standards, cut non-essential spending like executive perks and travel. Askeladden also wants the company to explore sale-leaseback of real estate to pay down debt.**
- **PENN- Penn Entertainment shareholder HG Vora (4.8% owner) [published a presentation](#) ahead of the AGM. We've talked about this one before, HG wants PENN to refocus on core Brick-and-Mortar Casino Business, halt burning cash on 'Digital Strategy' (especially in sports betting) and focus on high-ROI internal investments or return capital to shareholders.**

Merger Notes:

- Trump announced a partnership between U.S. Steel and Japan's Nippon Steel, but didn't provide any specifics. Maybe he is making this announcement to gain leverage in tariffs?
- DND CN and Plantro takeover is getting interesting. As flagged in our activist campaigns around the end of 2024, the company is in strategic review, yet Engine Capital (~7% owner) states that the company is engaging in a sales process at the worst time. And last March, the company's major shareholder, Plantro, with ~12% ownership, said it is prepared to take the company private at \$20 per share. Plantro is controlled by Dye & Durham's former CEO, Matthew Proud. The Board quickly rejected the offer. Then, adding a new layer of complexity, this week, the former CEO, Matthew, [urged the company to hold EGM](#). Matthew plans to spin off the financial services division as a separate entity and sell the remaining parts of the business.

Busted Merger Notes:

- [Spar, SGRP, broke it off with Hirewire Capital](#) after it missed their deadline to close. Hirewire owes a \$1.75m termination fee...

Strategic Alternatives Notes:

- **PGRE:** CRE play Paramount Group [announced it has initiated a review](#) and has hired BofA Securities as financial advisor and Latham & Watkins as legal counsel. Earlier this month the company sold a 25% interest in a 649,000 square foot Class A office building located in San Francisco, at a gross asset valuation of \$255 million.

Privatization Notes:

- **Dubai Residential REIT IPOed, DUBAIRES UH, to raise \$584 mil, and as a tradition with UAE companies, the deal has [been oversubscribed 26 times](#). This has become the UAE's first privatization in 2025. The prospectus is [here](#). The next privatization in the pipeline from the UAE has been [ALEC Engineering and Contracting](#), which is planning to raise \$500 mil.**
- Philippines' Maynilad Water Services [scaled down the size of its IPO](#) by ~6% due to low demand and market volatility. The government plans to raise ~\$800 mil from the privatization.

CVR Notes:

- This week, Vigil Neuroscience (VIGL) [agreed to be acquired by](#) Sanofi (SNY) for \$8.00 per share in cash plus one CVR, which entitles the holders to \$2.00 in cash based on the first commercial sale of VG-3927. VIGL specializes in neurodegenerative diseases, including Alzheimer's, and its lead candidate - VG-3927, showed some optimistic results in Phase 1 trials. However, Alzheimer's drug development has had an extraordinarily high failure rate. We are reading that nearly 98% or 99% of the drugs fail during Phase 2 or Phase 3 approval.

Tender Offer Notes:

- Frontera Energy Corp (FEC CN) [announced SIB to purchase](#) ~7% of the SO at C\$12.00 per share. The tender is expected to commence on May 29 and will run until Jul 5. There is no odd-lot provision. Shares closed at C\$5.7, a significant discount from the tender price. Assuming full participation, the offer represents a \$1.18CAD distribution (25% yield).

Investor Letter Notes:

- [Goehring & Rozencwajg Associates](#) published its 2025 Q1 letter. Always worth reading. A few noteworthy points:
 - **A Bullish Call on Platinum-Group Metals:** The time has come, we believe, to turn serious attention—and capital—towards the platinum group metals and their related equities.
 - **Peak Shale and the End of Unstoppable U.S. Oil Growth:** According to the latest figures from the Energy Information Agency (EIA), shale oil production reached its sequential high in November 2024, at 9.17 million barrels per day. Since then, the trend has flattened, and the pace of growth has begun to falter...
 - **The Uranium Short-Squeeze Opportunity:** The uranium bull market remains intact. It is, in our judgment, only a matter of time before spot prices resume their upward march, forcing short sellers to retreat.
