EVENT DRIVEN MONITOR

Vol. 227

www.KEDM.com

June 1, 2025

Dear Reader,

We realize that the size of KEDM may be intimidating—*it shouldn't be*. KEDM is meant for those in a hurry, along with those who want to spend a weekend fishing for ideas. Here are some tips on how to navigate KEDM based on how much time you intend to spend.

Up front, we have “KEDM Kliff Notes” where we flag what we consider to be the most interesting events of the week. Mind you, these are not buy and sell recommendations, but simply notes on the corporate event. This is then followed by “Weekly Changes” where we note all the material changes since the prior week. For many of you, these two sections should give you all the information you need to be informed of what's changing in the world of Event-Driven opportunities. The next few pages are our trading watchlists and notes on beaten down stocks that are on our radar for possible inflections in the coming months.

For those who want to dive in, the supporting data then follows. The index on page 2 links to the corresponding sections, allowing you to rapidly jump around to the sections that you are most interested in. We have color coded the data with green indicating a new ticker was added and yellow for when data changes. This is meant to allow you to rapidly scan the data and focus on only the information that has changed since last time. To make the data more user friendly, we have added links that rapidly take you to the appropriate press release, SEC filing or corporate presentation. Finally, we've flagged certain data orange to show that it's moved materially within the data-set. This is for people looking for leaders and laggards.

We know that some of you want to pull charts or go back to old data, so it's all there for you. It really comes down to what you want to do. KEDM can be a quick weekly reminder of pending events, or it can become a full-time obsession, along with everything in between. We hope you find it as valuable as we do.

Sincerely,

KEDM Team

KEDM Kliff Notes

Too busy to read everything? The KEDM team summarizes the most interesting Event-Driven information of the week/month.

Currently writing from Croatia and on my final leg before returning to PR late next week. Looking forward to getting back to the island, but hyper focused on not getting sucked back into the markets. Having been gone for a few weeks and clearing my head, the end result is that nothing has changed my thinking; if anything I am more convinced that bonds will be driving the ship (and right into the iceberg). Maybe I am in an echo chamber but when one of the smartest guys in finance, with access to the best real time data (i.e. Jamie) is making the rounds pounding his chest with the same narrative, we should all sit up and listen (link and summary below for those that missed). Whether this “breaks” in 3 months or 3 years is questionable, but it doesn’t seem like the time to take outsized risk, especially heading into the depths of Summer trading. So lighten up, find some ED trades and enjoy the Summer!!

‘You are going to panic,’ Jamie Dimon tells regulators about what will happen when the bond market cracks

The bond market is on edge, but less so this week after smooth Treasury auctions and talk of a key banking reform this summer

JPMorgan Chase CEO Jamie Dimon, shown here in speaking in Paris earlier this month, fired off a warning about the bond market on Friday, telling regulators they “are going to panic.”

Spin Notes:

- Anglo American, AAL LN, is distributing its holdings in Valterra Platinum (formerly Amplats), and Valterra will have its secondary listing on the LSE under VALT LN on 6/2. While there may be some spin dynamics weighing on VALT after it lists given it won't be included in the index on the LSE, Valterra already has a developed listing on the JSE, so it isn't listing in obscurity like Thungela. For AAL, the distribution of VALT should simplify AAL and potentially lighten some of the overhang.
- Vivani Medical, VANI, filed a [Form 10](#) for its Cortigent spinoff and still aims to spin in 3Q 2025.

Cluster Buying Notes:

- [Bracken Darrell, the President & CEO of apparel company V F Corp](#) (VFC), purchased a million. Two other insiders including the COO and a Director also purchased shares. Darrell started at the Company in 2023 after serving as the CEO at LOGI.
- **Vice chair, Alex Hansson picked up another [100k shares of North American Tankers, NAT](#). Hansson family is now up to a cool 4.65m shares**
- The Chairman and CEO at hotel REIT PEB has been a steady purchaser over the last year, with YTD buys totaling \$2m.
- **Not a purchase but an interesting development at FTAI as the CEO used his \$14 million lifetime gift exemption to transfer shares into his wife's trust. More info [here](#).**
- [Another Director stood up at BLDR](#), joining the founder of JLL and fellow Director who purchased over \$55m earlier in the month. **Worth noting that our very good friend, Max Wiethe, sat down with another friend, Bob Robotti and BLDR obviously came up in the discussion ([listen in and subscribe to OPM!](#))**
- The CEO, CFO, and COO at XRX stepped in for ~\$350k in the first purchase by the C-suite in over 5 years.
- **The activist and [Icahn's former right-hand man, Keith Meister](#), continues to purchase shares of VSTS – picking up \$5m this week. He now owns about 14% of the Company.**

Buyback Notes:

- [DXLG picked up \\$14m in the TTM](#). Pretty sizeable against their dumpster fire of a mkt cap, now at \$65m. **Worth noting that activist PLP Funds/Fund 1 continues to circle this name and still has an outstanding \$3/sh offer still out there for a 145% premium..Guessing that gets restruck...**
- Abercrombie, ANF, stepped on the gas peddle in Q1 after their stock got hammered for 60% since 2024. [They picked up \\$200m in the Q](#) (~5%) and have \$1.1B remaining.
- Not huge/sizeable announcements but good to see some mining companies popping up on the list – [CDE popped a \\$75m program](#) (1.5%) and XXX which announced a ~20m repurchase (5%)
- **The Brazilian bank and payment processor PagBank, [PAGS, popped its third program for a fresh \\$200m](#) (~7%). They've picked up ~\$2B (24m shares) in the TTM.**

Investor Day Notes:

- Investor Days Trailing 7 Days: WWR; PFGC; COHR; FA; XPOF; ASH; NOTV
- Investor Days Next 7 Days: [PEGA](#); [XERS](#); [AJG](#); [OSK](#); [PODD](#); [WTM](#)

IPO Notes:

- The stable coin issuer Circle [kicked off its IPO](#) with a valuation up to \$6.7 bil.

CEO Turnover Notes:

- **Rob Katz is stepping back into his role as CEO at MTN, succeeding Kirsten Lynch who served for three and a half years.**
- Instacart (CART) has tapped its current Chief Business Officer Chris Rogers to succeed Fidji Simo after she departed the Company to work at OpenAI.

- **Current COO Antonio Folosa will replace Carlos Tavares as CEO at STLA after Tavares was kicked to the curb. Uphill battle for Folosa as he has to fight against a tidal wave of Chinese EVs and the bullwhip of Covid-era Jeep purchases.**

SPAC Notes:

- Another Trump-related SPAC IPO'd recently and is flirting with new highs – RTAC. It has a mandate to pursue a merger in the crypto/blockchain space and has the same team as DWAC: Devin Nunes, DJT's Chair and CEO, is the Chair of RTAC and Eric Swider, former CEO of DWAC, is the CEO of RTAC. **Keep your eyes peeled on any names touching Lutnick, Omeed, and the Trump family...**
- SPAC Mergers Announced this week: None
- deSPAC'd this week: None
- Votes next week: None

Newsletter Short Notes:

- A number of short-side reports this week. Worth skimming through.

13D and Activist Notes:

- **HON**-Honeywell got a new Director as Elliott Management's ("more than \$5B" stake) [Marc Steinberg was appointed to the board](#). Remember, Elliott has been calling for [breakup of the company since 2024](#).
- **VAC**-Impactive Capital (9.5% stake) scored a win as their Managing Director, [Christian Alejandro Asmar was appointed to the board](#).
- **5105.JP**- Activist fund Palliser (3% owner) took a stake in [Japanese tiremaker Toyo Tire](#). The British activist wants Toyo to shrink balance sheet and sell itself as auto sector is going thru a period of rapid disruption.
- **RKT**- Caught our eye that mortgage, appraisal and title Co. Rocket got a new shareholder, as [Value Act took almost a 5% position](#).
- **QTRX**- Kent Lake (6.9% owner) [issued a statement](#) and they are pissed that Quanterix amended the Akoya merger agreement to avoid shareholder vote, and is pursuing this transaction which they call "significant value destruction"

Merger Notes:

- **GOGL / CMBT announced [an all-stock merger](#) in the shipping industry. CMBT already owns 40% of GOGL. Our judgment, based on reading the filing, is that the merger is highly likely to be consummated. No significant regulatory burden and significant prior ownership. The merger spread is at ~9%.**
- This week, Blackstone [reduced its offer from 115 pence per share to 110.6](#) pence per share, and the final offer deadline was extended until June 6. As we mentioned last week, even though the deal offer is still lower than 2024YE NAV, Blackstone raised concerns about the Warehouse REIT's key development asset – Radway Green. The merger spread has been maintained at ~16%.
- Earlier this year, the UK CMA provided conditional approval for the ANSS / SNPS deal. At that time, merger parties already had an understanding of the divestiture assets. And this week, the US FTC [mandated asset divestiture](#) in order to proceed with the merger. Now, as all major governments (UK, US, EU, and Japan) 'conditionally approved' the merger, the likelihood of the merger being consummated is high. The merger spread is at ~7%.

- [Blackstone agreed to acquire TXNM Energy](#) with ~\$11.5 bil valuation. It is an all-cash transaction and is expected to be completed by Q2 2026. Remember that New Mexico's regulatory commission rejected the merger attempt back in 2021. Regulatory hurdles will be the biggest challenge for this merger. Yet, regardless of the extended timing and regulatory hurdles, the merger spread is at 8%.
- The [Competition Commission of India](#) cleared the DWL LN / AXL deal this week with no remedies. The merger spread is at 6%.
- **Upcoming dates:**

Date	Target	Details
6/4/2025	FYBR	Merger outside date (2nd of 3 extensions)
6/6/2025	WHR LN	UK's Takeover Panel deadline for Blackrock (extended)

8/5/2025	ALE	Merger outside date (1st of 2 extensions)
8/28/2025	SRDX	Merger outside date (3rd of 3 extensions)

Listing Change Notes:

- NYSE Texas is ramping listings with duals from USPH, HAL, DAR and ORN

Strategic Alternatives Notes:

- **VSAT**-Satellite Operator ViaSat is looking for [strategic alternatives for its Defense Business](#). It's pretty levered with \$1.2bn Mkt Cap and \$5.3bn net debt, but monetizing the 18% of EBITDA segment could pay for the entire net debt and re-rate, pretty beaten down at 4.3x EV/EBITDA.
- **ITOS officially announced its wind-down** this week. What makes this mildly interesting is the ~\$500m in cash its sitting on (vs \$383m mkt cap). Worth a look if you play neg EV liquidations...

Privatization Notes:

- Saudi Arabia is [exploring options to IPO](#) its wholly owned tech firm - Saudi Information Technology Co. (SITE).
- The Indian government is also [looking to IPO two of its coal mining](#) units.
- UAE's [Dubai Residential REIT started trading](#) under "DUBAIRES UH". The shares are trading 15% higher than the IPO price.

Index Addition/Deletion Notes:

- **S&P rebal is coming up (expected on June 20th). Announcement should be this coming Friday. Guessing IBKR finally gets the nod for the 500. Worth watching the list for flows next week...**
- MSCI rejiggered on May 30th. Link [here](#) if you want to scroll through

CVR Notes:

- Not really a CVR, but in a [deal between Panetta Partners and Hepion Pharmaceuticals \(HEPA\)](#), Panetta purchased all patent assets, know-how, and clinical trial data related to Rencofilstat for a nominal amount. In return, HEPA shareholders will receive multiple CVR payments.
- RGLS / NOVN SW [tender commenced, expiring](#) on Jun 24. Our note on May 4 on the deal: “The CVR of Regulus Therapeutics (RGLS) and Novartis AG (NOVN SW) is interesting. RGLS will be acquired for \$7.00 in cash per share, plus a non-tradable CVR of \$7.00 each, based on a single, clearly defined milestone: the FDA approval of farabursen, a kidney disease treatment. The merger is expected to be completed by Q2 2025, and the shares are trading at ~\$7.85 per share. The CVR deadline is by Dec 31, 2034. Last March, Farabursen showed promising clinical results in Phase 1b.”

Fertilizer		11/12/2022	After nearly a decade of fertilizer prices in the doldrums, prices for potash, phosphates, and nitrogen hit near all time highs in March and April driven by increased energy costs, geopolitical conflicts, and supply chain and logistical challenges. Prices have fallen in recent months as the supply picture begins to look less dire and demand destruction sets in. With several projects to increase capacity in both potash and phosphates, and falling natural gas prices and the reopening of nitrogen fertilizer production facilities in Europe, fertilizer prices may continue to fall from what are currently extremely elevated levels.
